

AFTER THIRTY-THREE YEARS.

THIS full generation we have been in the retail shoe business, fitting shoes to the foot and fashion requirements of the families of Boston. Thus far, aside from introducing styles which have been scattered broadcast, our activities have been confined entirely to our home city.

Ever since our reputation was made, however, we have been thrashing around for a means of widening our personal scope to the whole of New England. We examined and tested all the ordinary methods of mail order.

Until recently we have been unable to devise a system whereby we could honestly say that a person living at a distance could get the same degree of service and satisfaction as that given a customer who tries on her shoes at the shop.

Our corps of designers caught on an idea a few years ago which they have at last perfected. A thoroughly trained mail service department is now prepared to do your every bidding, swiftly and surely. No longer is it necessary to purchase copies, you can now wear The Thayer McNeil shoe itself.

Our Book of Spring and Summer Styles is now ready for issue. It will be sent to you on request.

WANT HUSBAND?
HERE'S A CHANCE

Scranton, N. D., Farmer Has 500 Acres,
18 Cattle, 9 Horses, and
Two Sons.

Albany, N. Y., April 2.—If Governor Glynn can obtain jobs for unemployed men and women he ought to be able to find wives for lonely single men, reasoned Alvin Freitag, a farmer of Scranton, N. D. So Freitag took his pen in hand and directed a communication to the governor, pleading that the executive get him a helpmate. The letter arrived yesterday.

Freitag says he has two boys, 500 acres of land, eighteen head of cattle, and nine horses. For some time he has been struggling along on the cooking of hired girls when he could employ them and doing his own work when he could not obtain aid, but now the busy season on the farm is coming and he needs a woman to look after his house, he declares.

The letter contains nothing about his personal appearance, nor does it say whether the writer would prefer a blonde or brunette, short or tall, young or old woman. Furthermore, if any woman is willing to take a chance on Freitag making her a good husband he will pay her fare to Scranton, give her a ride to his farm in an automobile and guarantee to marry her.

While the governor will not refuse to receive sealed proposals for Freitag's hand, he would prefer that he be sent direct to the North Dakota man.

Retired on Pension.

Boston, April 3.—Hiram M. Koteher, vice president of the New Haven railroad, resigned at a directors' meeting yesterday. His health was the reason. He was given a pension.

PINKLETS

To Clear the Complexion.

One result of constipation is to disfigure the complexion with pimples and blotches. This is because poisons which should have been expelled from the body are retained. Cosmetics and ointments will not avail to clear such a complexion. The poisons which cause the disfigurement must be removed as nature intended. To do this a laxative that will gently assist nature, but which will cause no retarding constipation to aggravate the trouble, is needed.

Pinklets, the dainty new laxative, quickly clear away all offending matter without the least griping or discomfort. So simple is their composition that they can be taken with any other medicine that is not in itself a laxative. In every household such a simple, safe medicine is needed. Pinklets are tiny, sugar-coated granules, easy to take. Your own druggist can supply you. Sold in 25 cent bottles only.

Pinklets are a corrective for bad breath, will clear the complexion, and are recommended for torpid liver, biliousness, headaches, constipation and whenever a gentle laxative is required. Write to the Dr. Williams Medicine Co., Schenectady, N. Y., for Pinklet book. It is free.

"PAN-AMERICAN
POLICY" WANTED

John Barrett Says It Ought to Be Substituted for the Monroe Doctrine
—Eliminate Absolute Dictation.

Philadelphia, April 3.—John Barrett, director general of the Pan-American union, presided at the opening session of the American Academy of Political and Social Science at which the Monroe doctrine was discussed here to-day. Mr. Barrett declared that the time has come for a "Pan-American policy" as a substitute for the Monroe doctrine.

"By that," he said, "I mean a policy acceptable to and approved by all the American republics, a policy belonging to each and all on the same basis of attitude and action. Each nation should have the same sense of independence as the United States, the same dignity of position. By eliminating the attitude of absolute dictation and centralized power a long step will be taken towards a new era of Pan-American comity and confidence."

The term "Latin-American" is a misnomer as applied to the South American republics, according to Rear Admiral F. E. Chadwick, U. S. N., retired, who spoke on "Iberic-America."

"The Spanish and Portuguese races to which the governing classes in all the republics to the south of us belong, began as Berbers and remain essentially Berber-Moor to-day, scarcely changed at bottom from their relations across the straits in Morocco and the Atlas," he said.

"It is this lack of comprehension of what race character means that causes our troubles," he continued. "We do not understand the other man, and until we recognize our ignorance in this regard, until we accept the great fundamental specific temperament and habit of thought and action, we shall be unsuccessful in our relations toward these brother republics."

He declared that the Monroe doctrine no longer applied to South American states as it did when the Holly alliance in Europe threatened to reduce the feeble provinces of South America to the dominion of Spain. "To apply" this doctrine in the sense of standing by as a protector is naturally an irritant to a people in whom pride is a predominant characteristic," he said. "We know that intimation of such an attitude does irritate. Thus if we desire friendship, good fellowship and kindly feeling, why hold to an attitude of irritation and prevent this very desirable kindly feeling? I certainly can see no reason for it."

SHIPPERS GIVE EVIDENCE NOW.

Rea Ends Testimony of Roads in Rate Hearing.

Washington, April 3.—The testimony of eastern railroads in support of their application for a five per cent freight rate increase was concluded before the interstate commerce commission by President Rea of the Pennsylvania yesterday.

To-day the lake and rail shippers will be heard.

SKIRMISH ON
CANAL TOLLS

Informal Discussion Pending
Report of Committee

MANY MEASURES
COMPLICATE FIGHT

A Narrow Margin for the
Repeal Is Predicted
Now

Washington, April 3.—Administration leaders in the Senate buckled on their armor yesterday and plunged into the Panama tolls fight determined to maintain an unyielding position until the end of the controversy.

There were many informal conferences but "no compromise" was the slogan of the administration.

The president expects no filibustering. Senator O'Gorman, chairman of the interoceanic canal committee and leading opponent of the repeal, reiterated his intention of calling a meeting of the committee Tuesday and Senator Owen, leading the administration forces, asserted that public hearings on the bill were not necessary and would serve only to prolong the controversy.

Senator Norris was prepared yesterday to demand immediate consideration of his resolution providing for arbitration of the treaty disputes involved in the tolls controversy. Senator Poinsett was ready to take advantage of the first opportunity to bring up his measure calling for a postponement of consideration of the tolls question until President Wilson submits the details of the foreign relations existing between the United States and other countries affected by the repeal.

Senator Jones furnished another possibility for action yesterday, declaring his intention to press his resolution calling on the president to furnish the Senate with the names of all nations which have protested against the tolls exemption clause.

Estimates carefully compiled by the leaders of the two factions show that the administration forces have the requisite votes to pass the repeal bill by a narrow margin only.

CHINA INCREASES
POWERS OF AUTHORITY

The Constitutional Convention Adopts
the Amendments Advocated by
the President.

Peking, China, April 3.—The Constitutional convention, which has been in session at the capital since May 18, yesterday adopted unanimously President Yuan Shi-Kai's amendments to the provisional constitution of the Chinese republic. The delegates to the convention have now taken up the question of drafting a new constitution by which the president will be given large dictatorial powers.

A TONIC FOR THE NERVES

Nervous people who have not yet developed a disease that can be recognized and treated by the medical profession have the greatest trouble in finding relief. Irritation, headache, sleeplessness, nervous dyspepsia, all these discomforts make life miserable but are endured rather than run a doctor's bill without definite hope of recovery.

Every sufferer should know the danger of such a condition of the nervous system. Nervous debility and even paralysis may easily result if the tone of the nerves is not restored.

The one big fact that brings hope and relief is that the nerves can be restored by building up the blood. It cannot be too often repeated that only through the blood can nourishment and medicine reach the nerves. Dr. Williams' Pink Pills make the blood rich and red and quickly restore vitality and energy to a weak nervous system. A nervous person who gives these pills a trial is almost certain to see good results and, what is more, the benefit will be lasting because the trouble is attacked at its root. Thin blood makes weak nerves. Building up the blood restores the nerve force.

Washington, April 3.—Regional reserve banks, under the new federal system, it is officially announced, will be located in Boston, New York, Philadelphia, Cleveland, Richmond, Atlanta, Chicago, St. Louis, Minneapolis, Kansas City, Dallas, Texas and San Francisco.

The United States is divided into 12 banking districts. District one bank will be in Boston. This bank will have a capital of \$9,931,749 with 446 national banks as members. The territory includes all the New England states.

New York is district number two with 478 national and a number of state banks as members. Its territory is the state of New York.

The San Francisco district includes the state of Washington, Idaho, Oregon, Nevada, Utah, California and part of Arizona.

5 ROBBERS RAID
PRIVATE POKER DEN

Make \$4,200 Haul and Now the
Prietor Seeks Patrons'

New York, April 3.—Five masked and armed robbers who raided the "Merchants' Club," a private poker place in West Seventeenth street, here Wednesday night, are credited with having made the biggest haul of any stickup party in New York in many years.

White 25 men were playing in "Beany" Rosenfeld's place the five men entered quietly, tied and gagged the coterie, stood up the gamblers along the wall, and then, all with guns prominently displayed, robbed the keeper of the "bank roll" of \$700 and a \$500 diamond ring.

"The first man that puts his hands down," said the leader of the holdups, "will get a bullet through him." The warning was sufficient and no one moved for defense. Then every player was searched and loot estimated at \$3,000 was secured.

Still menacing the frightened players, the hold-up men backed into the hall of the place and four vanished. The fifth, a two-gun man, halted long enough to say: "The first man who sticks his face out his door will get two bullets in it," and then he, too, fled.

No report of the robbery was made to the police, but yesterday Rosenfeld, it is said, was scouring the underworld in an attempt to get back his patrons' jewelry, at least.

ITALY NEEDS MORE MONEY.

Forty Million Dollars Additional for the
Army Increase.

Rome, April 3.—The Italian Chamber of Deputies and Senate reassembled yesterday. The new cabinet, under the premiership of Signor Salandra, made known its legislative programme. Signor Salandra announced the introduction of financial measures to meet the situation created by cost of the recent war in Tripoli and the further amount of \$40,000,000 necessitated by raising the peace footing of the Italian army to 275,000 men, besides the colonial troops. The premier declared that Italy would continue her foreign policy on similar lines to those hitherto adopted, namely, loyalty to her alliances and friendship with other countries.

In connection with the threatened strike of 80,000 employees of the state railroads, who demand an increase of wages, Signor Salandra promised that the pay of the men would be increased by a fair adjustment to the economic and financial condition of the country. He uttered a warning to the men as to the grave responsibility they would assume in the event of any movement on their part causing a suspension of the service. Italy's policy in connection with her new colony in northern Africa aims, according to the premier, at the exploitation and pacification of the newly acquired territory. The address of Signor Salandra was frequently applauded.

Signor Salandra also stated that the public schools in Italy were to be increased in number, with the object of fighting illiteracy.

CUT THROUGH STEEL CAGE.

Murderer and Five Companions at Liberty in Illinois.

Cairo, Ill., April 3.—William Wilson and five other prisoners sawed their way out of the steel cage, broke through a section of the brick wall and escaped from Alexandria county jail at Cairo early yesterday while guards were at lunch at a nearby restaurant.

Wilson murdered Special Officer Thomas C. Logan of the Mobile & Ohio road here last January and was sentenced to be hanged April 24. As soon as the escape was discovered Sheriff Frazer called out his full force of deputies and with bloodhounds scoured the surrounding country. Sheriff Frazer has called for Wilson's capture dead or alive and has offered a reward of \$200. Wilson once escaped from the Ohio state penitentiary, where he was serving a life sentence.

Urged by Wilson.

Washington, April 3.—A special message from President Wilson urging an appropriation of \$500,000 for government buildings at the San Francisco exposition was read yesterday in the house.

KING MAY OUST
COURT ATTACHES

Reported as Displeased at Being Drawn
Into the Army Controversy.

London, April 3.—Reports that King George may be expected to show his displeasure at being drawn into the present army controversy by requesting several persons who have been attached to his court and enjoyed his confidence, to take their leave, were circulated yesterday.

It is declared that members of the House of Commons have expressed their belief in the statements of Premier Asquith and members of the cabinet that the king did not exceed his constitutional rights in the part he took when the outlook was the darkest. As a sequel to the entire army affair his majesty, it is now declared, is determined to rid the court of those who aided in the trouble by their show of partisanship.

General Sir Charles Whittingham, Horsley Douglas, G. C. B., has been appointed to succeed Field Marshal Sir John French as chief of the imperial general staff and first military member of the army council.

RAPID PROGRESS

Made This Year by United States Supreme Court.

Washington, April 3.—Unprecedented progress by the supreme court in its year's work, it became known yesterday, has brought embarrassment to lawyers all over the country. They have been caught unprepared to present their cases to the court and have been com-

pelled to ask the tribunal to pass over case after case until next year.

Chief Justice White is said to possess an ambition to clear the docket of all cases awaiting argument except current business. When he became head of the court, a case waited almost three years before being heard. When the court adjourns the last of May for the summer, it promises to be considering cases filed only a year before. Instead

of hearing only the first 300 cases on the docket, as was the practice a few years ago, the court this year may call cases as far along the docket as number 500.

The work during the year has been handicapped by the absence of Justice Lurton on account of illness. He has returned to Washington and intended to resume work when the court convened yesterday.
